## Monthly Co-op **Trivia**

### MAY TRIVIA:

Always keep at least \_\_ feet away from overhead power lines when using ladders or equipment.

**Answer:** Overhead power lines require 10 feet of clearance in all directions. Look up and look out for overhead power lines.

### JUNE TRIVIA:

The electric unit of power, the watt, is named after James Watt. What invention is he best known for?

*(See next month's newsletter for answer.)*

## Celebrate June Dairy Month with Breakfast on the Farm!

**June is Dairy Month** — a time to recognize and celebrate the hardworking farm families who help make Wisconsin America's Dairyland. One of the best ways to celebrate is by attending a local Dairy Breakfast and enjoying a hearty meal with friends and neighbors. These community events offer a wonderful opportunity to connect with others, learn more about local agriculture, and show appreciation for the farm families who work hard every day to help feed our communities.

# VEC's Most Wanted List

Vernon Electric Co-op has individuals who have money owed to them from capital credits they've accumulated over the years as co-op members. Capital credit checks issued to these former members have been returned to our office because the address on file is no longer valid. It is likely that many of these people have moved off Vernon Electric lines and neglected to leave us a forwarding address or contact. If you recognize someone on this list, please have them contact our office so we can update our records and see that they receive their checks.
